CLYDESDALE HORSES.

In offering the following Brood Mares and Young Stock, Mr. Drew begs to state that many of them have stood First in the show-ring in England and Scotland, as well as at the Paris Exhibition; and from the fact that he intends to devote his attention less to exhibiting than heretofore, purchasers may rest assured that the Stock submitted comprises the choicest animals of his stud, valuable for breeding purposes, and likely to take the highest position in the most important Agricultural Exhibitions of the country.

Mr. Drew has been much gratified to learn that out of the 48 animals disposed of at his last year's sale, 35 have since taken Prizes.

This Colt is own brother to 'Roseberry,' which took several First Prizes last year, and Second at this year's Stallion Show in Glasgow, in a class of about 100 of perhaps the finest animals ever seen. This Gelding stood First at the Highland Society's Show in Dumfries last year, and exhibits so many points of excellence, that an opportunity is here presented to exhibitors of this class of Stock of acquiring an animal well qualified to render the name of his owner famous in connection with exhibitions of the Agricultural Horse, of which he may be pronounced the *beau ideal*; and nothing would please the disposer more than to see him at the Kilburn Show.

'Darnley' gained the Glasgow Society's Premium for two years, and the Cup at the Highland Society's Show at Dumfries last year, for the best Stallion of all winners. This is a stylish Colt of great strength, and being also well bred, cannot fail to become a noted Stallion.

39 BROWN COLT, Entire.

Sire, 'Prince of Wales;' Dam, 'Jemima.' Sire of Dam, 'Young Lord Lyon.' 'Jemima' gained First Prize in 1877 as a Two-Year-Old; was First at the Hamilton Open Show last year; and has also gained other Prizes. This Colt, foaled in June, is certain, from his good shape and style, to become a valuable Horse for breeding purposes.

№ 40

40 DARK BROWN COLT, Entire.

Sire, 'Prince of Wales;' Dam, the well known 'Jessie Brown,' that has proved herself to be second to no Brood Mare in the Stud. This Colt, as will be seen from the illustration, excels to such a high degree in every desirable point, that he is likely to be the Champion for 1879.

One-Year-Old Fillies.

46 BROWN FILLY.

Sire, 'Prince of Wales;' Dam, 'Boosey,' which gained Second Prize at Hamilton in 1876, and is the Dam of the celebrated Horse 'Rhoderick Dhu,' that has gained so many First Prizes, also Dam of the Filly that took the First Prize at the Agricultural Society's Show in Glasgow last year. This Filly has all the good points of both brother and sister.

53 BROWN FILLY.

Sire, 'The Lord Harry ;' Dam, 'Minnie,' sister to 'Netty,' Champion Mare of Scotland in 1876. A little gem, sure to give great satisfaction. Foaled in August.

54 BROWN FILLY.

Sire, 'Prince of Wales ;' Dam, 'Bracelet,' a Prize Mare, with great substance. This is really a remarkably fine Filly ; so just and true in all its points, that it cannot fail to take a pre-eminent position as a Prize Winner.

55 BROWN FILLY.

Sire, 'Prince of Wales;' Dam, "Flora," a First Prize Winner, sister to 'Netty.' There is not a finer Filly than this in the stud, being full of quality, and exceptionally good in bone and hair.

The Yearling Colts and Fillies have been bred with the utmost care, and are decidedly superior to any Young Stock yet offered for Sale at Merryton. No doubt each animal has some distinguishing characteristic to recommend it; but all exhibit so many points of excellence in common, that it must be left very much to purchasers to decide on their relative degrees of merit.
